Approved calculation

Document page	2 of 4
File status	APPROVED FOR ESTIMATING / PRODUCTIVITY ANALYSIS — NOT A PAYROLL REGISTER
Reference	ARM-field burden-02
Control note	Reconcile to current accounting records before use

- The approved Q2 blended loaded rate is \$84.50 per field hour.
- The rate is the sum of the five stated components and is not a payroll cash rate.
- Use the same rate for company-level rework sensitivity unless a project-specific signed rate build exists.

Restrictions and control

Document page	4 of 4
File status	APPROVED FOR ESTIMATING / PRODUCTIVITY ANALYSIS — NOT A PAYROLL REGISTER
Reference	ARM-field burden-04
Control note	Reconcile to current accounting records before use

- Do not use the blended rate to alter employee payroll, union remittance or customer billing.
- Do not substitute estimated rework cost for posted job cost.
- Controller approval dated January 5, 2026 and VP Operations approval dated January 6, 2026; finance retains the component workbook.
