

INTERNAL AUDIT

# Preventive Maintenance Program Audit

|               |                |
|---------------|----------------|
| Prepared by   | Internal Audit |
| Date / period | June 30, 2026  |
| Status        | Internal       |

## Scope and observations

| #  | Observation                                                                         |
|----|-------------------------------------------------------------------------------------|
| 01 | Reviewed high-criticality assets, work-order completion, downtime, and parts usage. |
| 02 | Deferred preventive work is escalated when capacity or safety exposure is material. |
| 03 | Maintenance cost and downtime are retained in the ERP work-order module.            |

## Overall assessment

Controls are generally designed as expected; listed follow-up items remain with the accountable process owners.
