

INTERNAL AUDIT

Dayton Quality System Audit

Prepared by	Internal Audit
Date / period	June 30, 2026
Status	Internal

Scope and observations

#	Observation
01	Reviewed machining inspection, nonconformance containment, calibration, and scrap reporting.
02	Open corrective actions focus on repeat setup and tool-life issues.
03	Finance exposure is tracked in quality orders and nonconformance records.

Overall assessment

Controls are generally designed as expected; listed follow-up items remain with the accountable process owners.
