

INTERNAL AUDIT

ERP Access Review Summary

Prepared by	Internal Audit
Date / period	June 30, 2026
Status	Internal

Scope and observations

#	Observation
01	Reviewed privileged access, finance roles, production transactions, and segregation conflicts.
02	Direct database access is restricted to designated ERP platform administrators; business users work through assigned application roles.
03	Approved changes are transactional and retained in the ERP audit log.

Overall assessment

Controls are generally designed as expected; listed follow-up items remain with the accountable process owners.
